

IWN WESTERN REGION

CHAIRWOMAN'S MESSAGE

IWN Western Region launched an initiative that brings together women throughout their careers to empower, engage and enable them to rise to the best of their capabilities through training, mentoring and the creation of an associative model that all professional women can benefit from. We hope to reach out to a broader community of women across the spectrum. The aim is to provide a sense of community spirit which enables women to face challenges as a team rather than facing them individually. IWN is a common platform for interaction of ideas and opportunities and an excellent platform for networking opportunities. It connects women from various dimensions and helps them in broadening their scope, insight and awareness.

Mini Menon
Chairwoman,
IWN Western Region
