

# IWN NORTH EAST REGION

## CHAIRWOMAN'S MESSAGE

The status of women in the North Eastern Region of India is comparatively better than the rest of the country in many aspects. In some cases women from the region have become beacons for the rest of the country, especially Manipuri women, who are perhaps the most politically empowered in the country. Yet there are many areas which need development and through India Women Network, in North East India, we are able to bring together women from all walks of life to share knowledge, to raise issues, to listen to one another, to network better and to find ways forward to further women empowerment in the Region.
